WHAT GRADUATES & CLIENTS ARE SAYING ABOUT INTUITION IN BUSINESS AND SALES

I have never been happier with the match for our new CEO. Lori took our top 5 choices and explained the best fit without even seeing their CV's. Amazing! What a time saver.

J.B. Fortune 500. – Computer Technology, San Francisco, CA

Kelly, Doug and Lori sure packed a lot of learning in. I now have new tools that I can use for building my business. I can not believe how the genuineness, fun and real-factor of the instructors inspired me as much as the skills we learned.

William B. – Retail, Miami, FL

I was pleasantly surprised at how each participant discovered how much natural intuition they already had. It was amazing how we received helpful information for ourselves and others with the practice of the tools that Lori and Susan brought to us. I recommend these classes and these teachers highly.

Celeste Leonetti, Sacramento, CA

Within one month after Lori came our office for a 2-day consultation we revamped our staff, aligned ourselves as the two owners and began to write out our 5 year exit plan. Our sales in the four weeks after our business intuition think tank brought in more revenue than the first half of the year. We know it is directly related. Business Intuition is definitely real. Thanks so much!

K.W. & W.B. – Designers, New York City, NY

Honestly, having taken these courses, they are absolutely amazing. They not only have made me more connected on many levels but they have also made me a better person and teacher. I can't recommend them enough.

D.D. – Marketing, Author, Los Angeles, CA

Sitting down for a business intuition session last year gave us the impetus to make changes, clarify issues, recharge our passion and optimism, and envision the future through clear eyes.

Paula Bass and Karen Neath – KBC Tools & Machinery, Mississauga, ON

"How do you explain the unexplainable? Let me try. Just like there is a soul in every human longing to express itself, so it is with every business. Lori and Susan demonstrate how to access what they term the "innate intelligence" of the business using very practical and fun exercises. If you want the full potential of your business to come to life and serve you, I highly recommend these classes."

Trish Ayers, Sacramento, CA
