Anyone Can Learn To Access Higher Wisdom!

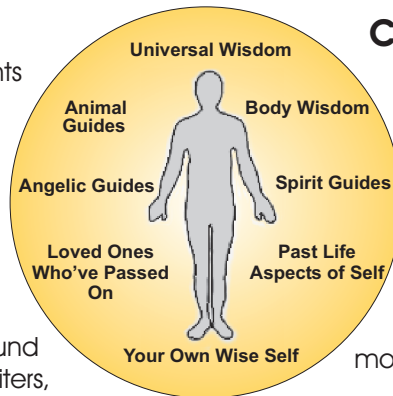

Intuition is a natural skill. Learning to channel or direct it to gain further insight is a matter of learning to focus your attention. Let us teach you how to tune in to your intuition AND 8 specific outside sources of higher wisdom. Heightened perception is a skill set, not a mystical gift. There is incredible wisdom available in the subtle and invisible realms. Let us teach you how to access this wisdom.

Who Attends?

All are welcome. Since 1994, over 6500 students have attended this class. It has been taught in 5 countries and in over 45 cities by Founder, Lori Wilson, and the Inner Access 101 Trainers.

Participants include:

- Doctors, nurses and counselors trained in allopathic medicine
- Practitioners in holistic healing modalities
- People with NO background in healing or intuition
- Parents, educators, writers, business people, homemakers, and artists
- People looking to gain trust and feel more empowered in their lives
- People who are just curious about intuition and different sources of wisdom
- People just like you.

Course Content:

Access higher wisdom from 8 specific sources such as: your own wise self; spirit guides; loved ones who are in the spirit realm; animals; nature elements; past life memories; angel guides; your body; and universal wisdom.

Find your own style of tuning-in by sampling a wide variety of tools to gather information such as: writing; visualization; color; breath; sound; movement; sensing; posture; and drawing.

Learn a frame of reference for this skill set including: the difference between intuition, conscious channeling, mediumship and psychic work; the importance of finding your own personal style for receiving information; how to connect to higher wisdom for yourself and others; principles of opening and closure when you are working with your intuition; applicable uses for these tools; understanding energy; trust; and so much more.

"In our group there were people who were experienced with the work, and also newcomers. By the end of the first day, we couldn't discern any difference. The teacher and course structure were able to make an intangible thing very tangible."

"I received what I needed and discovered through experience the ease with which we can access this information."

"This has been the best jam-packed, organized course I have ever been to — thanks !"
